The Age of Leonardo and Michelangelo

The Virgin of the rocks, 1483-86
Louvre Museum, Paris

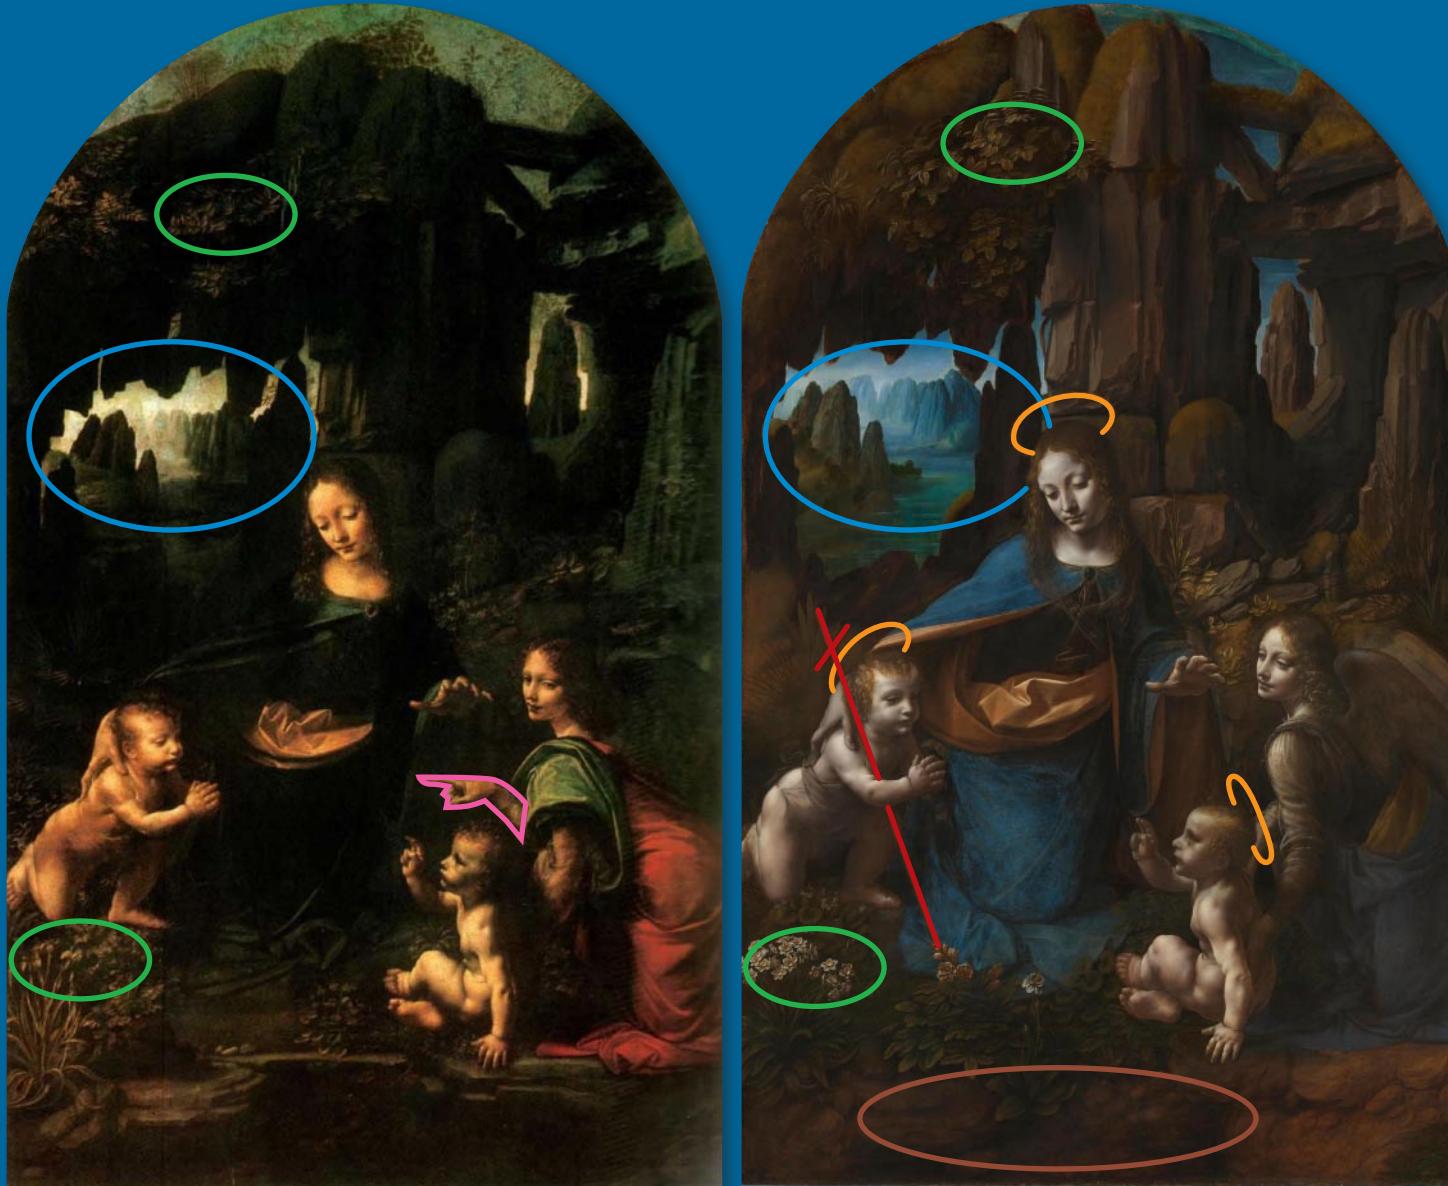

The Virgin of the rocks, 1493-1507
National Gallery, London

In the period of Milan Leonardo painted two masterpieces: **The Virgin of the rocks** and the famous **Last supper**.

In the first work (**painted in two versions**, currently at the Louvre Museum of Paris and at the National Gallery of London) there is the **Virgin Mary** with the little **John the Baptist** on the left, while **Jesus** and an **angel** are on the right. Behind them the rocks.

CAN YOU DESCRIBE THE DIFFERENCES ?

The Virgin of the rocks, Louvre Museum

The Virgin of the rocks, National Gallery

The Age of Leonardo and Michelangelo

The holy characters are placed inside a **pyramidal shape**, an arrangement which should become very common in the following years because it represents the **conceptual unity**. This geometric form is animated by the **turning movement** of the figures, a feature which will influence also Michelangelo.

The Age of Leonardo and Michelangelo

Like in The Annunciation it is possible to find the **atmospheric perspective** at the end of the landscape. The **passages among the colours** are very soft and the figures haven't an outline around them like in Botticelli's ones.

This technique is the so-called "**sfumato**".
